Annual Spring Catalogue

IN presenting this catalogue we desire to announce that we have extended our premises, which enables us to carry a larger stock and facilitate the filling of orders promptly.

FREE DELIVERY

Within a radius of 100 miles from New York City we deliver free any order entirely composed of Seeds or Bulbs amounting to two dollars or over, providing cash accompanies the order.

We deliver free by mail all flower and vegetable seeds by the packet, ounce and pound.

If beans, corn and peas are wanted by mail, add to remittance at the rate of 5 cents per pint and 10 cents per quart.

Fertilizers, insecticides, sundries, trees and plants are at all times excluded from free delivery.

No charge for packing or delivery to railroad station, steamer or express office.

We do not offer premiums, but enclose with cash orders a liberal collection of seeds for trial.

ORDER EARLY

We request our customers to order as early as possible on receipt of catalogue. We endeavor to ship all orders immediately on receipt, but during the busy season it is almost impossible; hence, the importance of ordering early.

GARDENERS AND FARMERS

Parties requiring the services of reliable men, married or single, should consult with us, as we have the names of a number on our register, thoroughly experienced in every branch of the business. We have a large acquaintance among gardeners in this vicinity, and it is seldom that any one who applies to us fails of getting the right party. No fee.

NURSERY DEPARTMENT

We have published a New Catalogue containing all kinds of

**ROSES, FRUIT TREES, SHRUBS, EVERGREENS,
DECIDUOUS TREES AND HARDY PLANTS,**

which will be mailed FREE upon request.

INDEX, SEE LAST PAGE

NOVELTIES AND SPECIALTIES IN FLOWER SEEDS

ANTIRRHINIUM Majus "Ruby"

A beautiful new variety with self colored bright ruby-red flowers. Fine for cutting and borders. Pkt., 25c.

AQUILEGIA. Coerulea Fl. Pl.—"Rose Queen"

This novelty attains a height of 12 to 16 inches. Freely branching and fine foliage. The plants produce on long and slender stalks a great profusion of graceful, long and spurred flowers of light to dark rose with white centre and yellow anthers. Pkt., 15c.

ASTER, "Daybreak"

Flowers are very large and double, of a beautiful shell-pink color, growing about 2 feet in height. Pkt., 10c.; $\frac{1}{4}$ oz., \$1.00.

ASTER. Improved Branching.

This superb strain is of American origin, and is especially adapted to our climatic conditions.

The flowers are very large in size and borne on long, stiff stems, 2 to 2½ feet high. The petals are long, giving a Chrysanthemum-like appearance to the flower. They flower two to three weeks later than the average type. (See illustration on cover.)

We offer the following colors separate:

Crimson, Dark Blue, Light Blue, Pure White, Scarlet, Shell Pink. Pkt., 10c.; $\frac{1}{4}$ oz., 60c. Collection of six varieties, 50c.

Finest Mixed. All colors. Pkt., 10c.; $\frac{1}{4}$ oz., 50c.

ASTER, "Snowdrift"

The earliest Aster in cultivation with superb plummy snow-white flowers of the Ostrich-feather type. Pkt., 10c.; $\frac{1}{4}$ oz., \$1.00.

Dimorphotheca Aurantiaca

COSMOS.

"Lady Lenox"

The flowers are from six to seven inches in diameter and of a delightful pink color. The plant is strong and vigorous, growing six to seven feet high. Pkt., 10c.; oz., \$1.00.

DIMOR.

PHOTHECA

Aurantiaca

This splendid annual is well adapted for groups or borders, and flowers continually through the summer. Its Marguerite flowers are rich orange-gold with a dark colored disc, measuring two-

and-a-half inches in diameter. The plants grow about 15 inches high and very profuse blooming. Pkt., 25 cents.

NOVELTIES AND SPECIALTIES IN FLOWER SEEDS—Continued

GERBERA JAMESONII HYBRIDA

The large, well formed flowers, borne on long and strong peduncles, last a long time in a cut state and furnish fine material for bouquets and decorative purposes. The colors vary from pure white through shades of yellow, pale red and salmon to orange rose, cherry red, scarlet and rich crimson on violet red. Pkt., 50 cents.

Gerbera Hybrida

GYPSOPHILA, Elegans Carminea

Splendid carmine rose flowering strain, much brighter than the old Gypsophila elegans rosea. The plants grow about 10 to 12 inches in height, and are very free flowering. By the loose habit of the plants, the delicate thin branches and the small leaves, this makes it very useful for bouquets, vases and other floral arrangements. Packet, 10 cents.

GYPSOPHILA, Elegans Grandiflora

This is an improved large flowering, pure white form of the annual Gypsophila. Very fine for cutting. Packet, 10 cents; ounce, 50 cents.

Impatiens—Holstii Hybrida

IMPATIENS, Holstii Hybrida

Resembling I. Sultani in foliage and shape of flower, these hybrids produce the following colors: bright red or carmine, deep violet, chamois rose, rosy white, white with red center and orange vermillion. The plants grow from 1½ to 2 feet high, with dark green foliage, and flower from June until Fall. A partially shaded location suits them best.

Suitable also for pot culture.

Mixed Hybrids. Packet, 25 cents.

IMPATIENS, Holstii nana, Vermilion Orange

A dwarf compact variety of the attractive Impatiens Holstii. It forms regularly branched bushes, from 6 to 8 inches in height, and produces bright vermillion orange flowers in great profusion. Foliage and stem light green. Packet, 25 cents.

IMPATIENS, Holstii nana, Deep Scarlet

Another dwarf variety with dark foliage and stems; flowers about an inch across, of a beautiful deep scarlet. Packet, 25 cents.

NOVELTIES AND SPECIALTIES IN FLOWER SEEDS—Continued

KOCHIA TRICHOPHILLA (Summer Cypress)

A hardy annual which forms a compact bush about 2 feet high, with feathery light green foliage changing in the autumn to a deep red. Adapted for pots or forming a hedge for the summer. Pkt., 10 cents.

MIGNONETTE, "New York Market"

This variety is the largest, boldest and best for greenhouse culture. The spikes attain, when well grown, to the prodigious size of from 14 to 18 inches in length. The strain we offer has been carefully selected from greenhouse grown stock. Pkt., 25c.; $\frac{1}{8}$ oz., \$1.00.

REHMANNIA ANGULATA

This very beautiful half-hardy herbaceous perennial is very free flowering; the flowers, borne up the stem, are rosy purple about 3 inches in diameter, and have a rich yellow throat dotted with purple. The individual blooms are large, striking and showy. The plant is easily grown, and flowers the first year, if sown early in the year. Pkt., 15 cents.

SALVIA, "Ball of Fire"

The flowers are a brilliant scarlet, and the plants are very dwarf and compact, attaining a height of only 2 feet to the top of the flower spikes. Makes a fine pot plant. Pkt., 25 cents.

SALVIA, "Zurich"

This variety, color brilliant scarlet, is very dwarf and compact, free flowering, and seldom exceeds more than 12 inches in height. It flowers early in June and continues till late in the Fall. Pkt., 25 cents.

STOCKS. Ten-Week

Marshall's Giant Perfection

We have secured an extra fine strain, which has been carefully selected from the choicest flowers. We can recommend this strain with the greatest confidence as being the best ever offered. The plants attain a height of two feet, and are of handsome pyramidal form, with branching habit.

We offer the following colors: Blood Red, Dark Blue, Crimson, Flesh Color, Light Blue, Pure White, Rose, Scarlet and Yellow.

Separate colors. Pkt., 15c.; oz., \$1.00.

Mixed, all colors. Pkt., 10c.; $\frac{1}{8}$ oz., 75c.

STOCKS. Winter Flowering

Beauty of Nice. Very large delicate pink flowers.

Empress Elizabeth. Strong spikes of very large delicate flesh-pink flowers.

Empress Augusta Victoria. Color silvery-lilac, grand for cutting.

Queen Alexandra. Similar to Beauty of Nice, except in color, which is rosy-lilac.

All of the above 25 cts. per pkt.

Stock—Giant Perfection

SPECIALTIES IN VEGETABLES

BEAN, Fordhook Bush Lima

This Lima Bean is the only stiffly erect form of the Potato Lima. It is of erect habit, branches freely but with all the branches held upright. The beans are twice the habit, branches freely but with all the branches held upright. The beans are twice the inches in length and contain four or five large beans. Per half pint, 15c.; pint, 25c.; quart, 50c.

CAULIFLOWER, First and Best

An exceptionally good variety for forcing under glass, being very dwarf and robust, and producing large heads of snowy whiteness. This is undoubtedly the earliest and best forcing Cauliflower in cultivation. Pkt., 50c.; $\frac{1}{4}$ oz., \$2.50; oz., \$8.00.

SWEET CORN, Golden Bantam

This is the hardiest and earliest Sweet Corn in cultivation. It is dwarf in growth, the stalks averaging four feet in height. The ears are from five to seven inches in length and the grains are a rich creamy yellow. It has a most delicious sweet flavor. Pkt., 10c.; pt., 15c.; qt., 30c.

LEEK, Marshall's Giant

The largest and best Leek for exhibition. Highly recommended as the choicest variety in cultivation, of a mild and delicious flavor. Pkt., 10c.; oz., 40c.

LETTUCE, Eclipse Cos.

A perfectly distinct variety. It is the dwarfest Cos Lettuce, and produces a firm crisp heart quicker than other sorts, and is the most self-folding variety. Pkt., 10c.; oz., 40c.

LETTUCE, Wayahead

This is the earliest and surest heading Lettuce grown. It is earlier and larger than May King, more tightly folded and with smaller amount of outer foliage. The leaves are light green and heads blanched to a rich yellow tint. Pkt., 10c.; oz., 50c.

MUSK MELON, Fordhook

This variety is a cross between the Emerald Gem and Jenny Lind. The flesh is very thick, of a deep salmon color. Its flavor is equal to the Emerald Gem, and the fruits are remarkably even in size, weighing from one-and-a-half to two pounds each. Pkt., 10c.; oz., 30c.

SPECIALTIES IN VEGETABLES—Continued

ONION, Ailsa Craig

This grand English variety can be grown here with as great success as in England, where it often attains a weight of 2 pounds and over. The skin is a pale straw color, and oval in shape. Excellent for exhibition purposes. The seed we offer is imported and grown from a selected strain. Pkt., 10c.; $\frac{1}{2}$ oz., 25c.; oz., 50c.

ONION, Cranston's Excelsior

This is the leading English Exhibition variety, and well deserves its popularity. It is very large and handsome, inclined to globular in shape, and of a beautiful straw color. Pkt., 10c.; $\frac{1}{2}$ oz., 25c.; oz., 50c.

PEA, Prince Edward

The pods are produced in great profusion, and attain a length of seven inches, being closely packed with dark green peas of mellow flavor. Branching habit and robust constitution. Height, 4 feet. Pint, 20c.; qt., 35c.; peck, \$2.25.

PEPPER, Chinese Giant

The largest mild Pepper; flesh very mild and thick. Color brilliant glossy scarlet. Pkt., 10c.; oz., 50c.

PEPPER, Upright Sweet Salad

The best Pepper for family use. The color is bright scarlet and the flesh thick, mild and sweet. Pkt., 10c.; oz., 50c.

SQUASH, Delicious

The Delicious Squash, although similar in color and shape to the Hubbard, is a far superior variety for table use. The flesh is remarkably thick, fine grained, sweet and of rich flavor. Pkt., 5c.; oz., 15c.; $\frac{1}{4}$ lb., 50c.

SQUASH, Giant Vegetable Marrow

An English introduction, being very much larger than the old variety of Marrow. The color is dark green, flesh thick and solid, with small seed cavity. We had on exhibition a specimen grown on Long Island weighing 55 lbs. and of perfect shape. Pkt., 25 cents.

TOMATO, Coreless

In shape it is almost round and bright red in color. It is immensely productive, bearing clusters of four to seven fruits 6 to 8 inches apart along the stem. Free from green core; ripens all over at once. A splendid slicing sort. Pkt., 10 cts.; oz., 50 cts.

TOMATO, Marshall's Prolific

For forcing we can strongly recommend it as being the best variety, as it sets very freely and is an exceptionally heavy cropper.

For outside planting it is the earliest variety grown, an enormous cropper, of medium size, producing as many as thirty Tomatoes on a truss. The fruit is a bright scarlet color, perfectly smooth, flesh solid, and contains very few seeds. Pkt., 25 cts.

Tomato. Marshall's Prolific

CHRYSANTHEMUMS

WELLS' POCKET NOVELTIES FOR 1910.

These varieties are disseminated simultaneously here by an arrangement with Mr. Wells as in England.

- Howard Gould.** The florets are long and grooved and the flower builds up into an enormous globe. The inside of the petals are bright golden chestnut with a reverse of pure deep gold.
- Kara Dow.** Chestnut with a bronze reverse. Described by Mr. Pockett as the biggest bronze in existence.
- Miss Alice Finch.** A splendid purple crimson flower. Habit perfect, foliage right up to the flower, stem stiff and of medium height.
- Mrs. David Syme.** The grandest white for the exhibition table. It is as large as Moir, carries its foliage right up to the flower and the stem is perfect. Certificated in England and gold medal in Australia.
- Mrs. R. Luxford.** Indian red with golden reverse, splendid dwarf grown. Makes an ideal pot plant and is ahead of any other red we now have.
- Mrs. W. A. Read.** An intense fiery, scarlet crimson, petals standing out stiff; foliage perfect, which is right up to the flower, stiff stem and a tall grower.
- Miss Edith King.** An improved Mrs. Knox. Color bright canary yellow, very broad florets. The outer petals twist and curve like shavings. Sturdy and robust grower.
- Rose Ellis.** An improved Lady Hopetown. Flowers enormous, but can only be recommended for the short vase or supported classes.
- Onunda.** The Gigantic white. The flower staged by Wm. Duckham measured 45 inches in circumference. The stem was fully equal to carrying the flower erect. This variety scored 94 points on the exhibition scale.
- W. Woodmanson.** The color is not so intense as Pockett's crimson, but the flower is much larger.

Prices of all the above novelties, \$2.00 each; \$20.00 per dozen.

NEW CHRYSANTHEMUMS

Our stock of new Chrysanthemums are grown for us by C. H. Totty, which is sufficient guarantee that all plants will be strong, clean and healthy.

Price 50c. each, \$5.00 dozen, except where otherwise priced.

- Captain Julyan.** Bright primrose yellow, splendid grower and a very satisfactory variety to handle when grown as a pot plant or as a spray. Comes good on any bud.
- Gladys Blackburn.** A large handsome flower of the Carnot type, buff color, a very easy doer and an all round good thing. Height 3 feet; crown bud for a large flower.
- Hetty Wells.** Old rose shade of bronze and apricot. This variety is hardly big enough for an exhibition flower but makes a fine pot plant or spray.
- Keith Luxford.** Wine red, very distinct in color. This variety is not a monster but it is very beautiful and the color is unique; has splendid habit, medium height. Crown bud after August 10th.
- Miss Muriel Smith.** Salmon terra cotta, charming color, large flowers on stiff stems, Hardly large enough for exhibition but one of the most beautiful varieties grown.
- Mrs. A. R. Peacock.** A Beatrice May seedling. The style and shape of the flower is much the same as its parent with the added advantage of perfect foliage. A splendid keeper. Certificate C. S. A.

NEW CHRYSANTHEMUMS—Continued

- Mrs. H. Stevens.** Golden salmon bronze. This is a magnificent variety and will be very popular as a show flower. Size is enormous, stem and foliage perfect. Any bud after August 15th.
- Mrs. W. Arnold.** A first class commercial white. Petals very stiff, stem and foliage perfect, flower a splendid keeper and shipper.
- Mrs. Wm. Wincott.** A fine early pink. Every bud comes perfect and as a commercial pink ranks high. Certificated C. S. A.
- R. F. Felton.** The deepest possible shade of yellow. The flower is medium in size, stem and foliage perfect, the latter being carried right up to the flower and the flower itself never damps. Every grower should try this sterling novelty.
- Wells Late Pink.** One of the finest things sent out in many years, flower is extra large, stem and foliage absolutely perfect.
- W. Holston.** Golden salmon. Every bud produces a perfect flower. Stem is perfectly stiff and the foliage is carried right up to the flower.
- W. J. Higgs.** Mahogany bronze. This is a perfect incurved flower and as a direct incurved it makes a large flower of its type, dwarf, handsome grower, perfect stem and foliage.
- W. Meade.** Bright rosy red. One of the very largest in size and a valuable exhibition variety. Carries the foliage well up to the flower, dwarf habit.
- Yellow Ivory.** This is a yellow sport of Ivory. One of the best and most largely grown commercial varieties in the country.

Price, 25c. each; \$2.50 per dozen.

EXHIBITION CHRYSANTHEMUMS

EARLY SINGLE CHRYSANTHEMUM SEEDS

We have a selected strain of these in Wells's original packets which will flower the same season as planted. Pkts. 25c. and \$1.00.

HARDY CHRYSANTHEMUMS

Hardy Large Flowering Varieties

The Hardy Chrysanthemum should be in every garden as they give an abundance of flowers late in the fall. Plants should be set out in April and May to flower the same year.

Allentown. Golden bronze.
Dinizula. Light rose.
Dundee. Dark red.
Fred. J. Red orange.
Globe d'Or. Dwarf, clean yellow.
Gloire de France. Silver pink.
Hester. White shaded flesh.
Hijos. Beautiful primrose pink.

Julia Lagravere. Crimson maroon.
King Henry. Straw white..
King Philip. Rich rose pink.
Mrs. Porter. Bright bronze.
Prince of Wales. Pure white.
Stratagem. Dark red orange.
St. Illoria. Silver rose.
St. Almo. Splendid white.

Plants—each 10c; dozen \$1.00; 100 \$7.00.

Hardy Large Flowering Open Centre Varieties

Bertha. Large white.
Bohemia. Fine pure yellow.
Boston. Golden bronze.
Gertrude. Pure white.

Gladys. Flushed pearl.
Mrs. Porter. Bright bronze.
Sir Michael. Lemon yellow.
The Hub. Fine white.

Plants—each 10c.; dozen \$1.00; 100 \$6.00.

Hardy Pompon or Button Varieties

Agalia. Light orange, shaded pink.
Alice Cary. Pure yellow.
Cerise Queen. Cerise pink.
Dawn. Daybreak pink.
Eleganta. Deep rose, shaded white.
Henrietta. Bronze, yellow edge.

James Boone. Pure white.
Little Pet. Rich violet red.
Lyndhurst. Deep scarlet bronze.
Rhoda. Pink, shaded white.
Rufus. Crimson maroon.
Sunshine. Bright golden yellow.

Plants—each 10c.; dozen \$1.00; 100 \$6.00.

NOVELTIES IN BULBS

GLADIOLUS Primulinus Hybrids

A very rare species from South Africa. Extremely vigorous and healthy grower, blooming in July and August. Grows 3 to 5 feet high, with long spikes of richly colored blooms, varying in color from clear yellow to crimson, the latter with large soft orange or golden throats.

Each, 20c.; dozen, \$2.00; 100, \$12.00.

LYCORIS Squamigera

This plant also known as Amaryllis Halli produces in the early spring attractive green foliage which grows until July when it dies off. After a months rest flower stalks two to three feet, develop with lily shaped flowers 3 to 4 inches across of a delicate lilac pink, shaded with clear blue color. The bulbs can be planted in the Fall or Spring.

Strong bulbs, 20c. each; \$2.00 dozen.

GIANT FLOWERING MONTBRETIAS

George Davison. The stems are three feet high with eight to ten branches and pale orange yellow flowers three inches across. Early flowering. Bulbs 25c. each; \$2.50 per dozen.

Hereward. Late giant flowering. Flowers light orange yellow. Bulbs \$1.00 each; \$10.00 per dozen.

King Edmund. Grows from three to four feet in height. Flowers orange yellow with crimson center; very free flowering. Bulbs \$1.00 each; \$10.00 per dozen.

Prometheus. A grand variety growing three to four feet high, covered with a mass of remarkably large flowers, about three inches across, of a handsome bright orange color, with a wide reddish brown stripe at the base of the segments. Bulbs \$1.00 each; \$10.00 per dozen.

Select Vegetable Seeds.

WITH GENERAL DIRECTIONS FOR CULTIVATION.

W. E. MARSHALL & Co. give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

We Deliver Free all Vegetable Seeds in packets, ounces and quarter-pounds, when ordered by mail from this Catalogue.

When Seeds in bulk are ordered by mail, postage must be added to catalogue prices at the rate of 8c. per pound; 15c. per quart for peas or beans, and 10c. per quart for corn.

Unless postage is sent with mail orders for these items we shall be obliged to reduce quantities to make up the deficiency.

ARTICHOKE.

One ounce will sow 100 feet of row, and produce about 500 plants.

A rich sandy loam is best adapted for this plant. The seed should be sown in drills $1\frac{1}{2}$ inches deep and one foot apart. Transplant to rows 3 feet apart. They reach maturity the second year, protect in winter by a covering of leaves or coarse manure.

Large French Globe. Heads large, fleshy and of rich flavor. Pkt., 5 cts.; oz., 35 cts.

Jerusalem. Grown for the tubers, which resemble potatoes, and are cultivated in a similar manner, but the rows should be at least four feet apart. Qt., 20 cts.; pk., \$1.25; 2 lbs., by mail, 50 cts.

ASPARAGUS.

One ounce will sow about 50 feet of drill.

Sow in Autumn or in Spring as soon as the soil is in good working condition. At one or two years transplant to permanent beds.

	Per Pkt.	Oz.	$\frac{1}{4}$ Lb.
Conover's Colossal. Very large prolific and tender.....	\$0.05	\$0.10	\$0.20

NEW WONDER BUSH LIMA. Very dwarf; flat beans.....	.10	.20	.35	2.25

Pole, or Running Beans.

Sow from the first day of May (for all except Limas) to the latter part of May, in hills 4 feet each way. Limas should not be planted until warm weather has fairly set in. One quart of Limas will plant about 100 hills, allowing four or five beans to a hill, and of the smaller sorts about 200 hills. Poles 8 to 10 feet long should be firmly set in the hills before planting seed.

Set poles 4 feet apart each way, and plant 4 to 6 Beans about 1 inch deep, around each pole. Thin out to 3 plants to a pole, if the soil is rich; pinch off the ends of plants when they overrun the top of the poles, to effect more perfect growth below.

	Per pkt.	Pint.	Qt.	Pk.
CHALLENGER LIMA. Thick and productive. Best of all.....	\$0.10	\$0.20	\$0.40	\$2.50

BEET.

One ounce will sow 50 feet of drill.

For early supply sow as soon as the ground is in working order, in drills one foot apart and two inches deep. For main crop, sow the second week in May, and for winter use sow in June. When the plants are well forward thin out to about nine inches apart. The young Beets, with their tops, pulled out of the row are excellent, used as Spinach.

Cauliflower.

One ounce of seed produces about 3,000 plants.

By sowing the early varieties in a hot-bed in February or March, or later in a cold frame, fine heads can be obtained quite early. For a later supply, sow in a prepared bed in May, choosing a cool, moist place. When large enough, transplant, making the rows about two and a half feet apart and eighteen inches between the plants. Transplanting should be done in moist weather. In dry seasons the crop must be watered.

CARDOON

Sow early in Spring, and transplant in trenches. When full size, earth up same as celery.
Large Solid.....Per package, 5 cts.; ounce, 30 cts.; $\frac{1}{4}$ pound, 75 cts.

CELERY

One ounce will sow about 300 feet of a row and produce about 5,000 plants.

Sow in the open border early in April, in rich ground. When the plants are 3 inches high, transplant 4 inches apart into temporary beds of soft rich soil until they acquire sufficient strength for planting out. Plant in rows 3 feet apart, and set 8 inches apart in the rows. After the planting nothing further is necessary for 6 or 7 weeks, except running through between the rows with the cultivator or hoe, and freeing the plants from weeds. About the middle of August earthing up is necessary for blanching and whitening of that which is wanted for early use. After the soil has been drawn up against the plant with the hoe it is further pressed close around each plant by the hand, firm enough to keep the leaves upright and prevent them from spreading, using care to prevent the soil falling into the heart of the plant.

WHITE PLUME CELERY.

	Per Pkt.	Oz.	$\frac{1}{4}$ Lb.

West India Gherkin. Used only for pickles; the smallest of all varieties.05	.20	.60

ENGLISH CUCUMBERS FOR FORCING.

Telegraph, Marquis of Lorne, Duke of Edinburgh, Tender and True, Covent Garden Favorite, Lockies' Perfection. Pkt. of 10 seeds 25 cts.

DANDELION.

The Dandelion affords one of the earliest and most healthful Spring greens or salads. It is best when blanched. Sow early in Spring, in drills 18 inches apart, and thin out to 6 inches in the drills. Keep clear of weeds, and the following Spring it will be fit for the table.

Improved French. Pkt., 5c.; oz., 20c.; ¼ lb., 60c.

ENDIVE.

One ounce of seed for 75 feet of drill.

One of our best salad plants. For a first crop, sow about the middle of April; for succession, small sowings may be made every month till August, when the main planting is made. Set out the plants one foot apart, in rows, and when well grown effect blanching by folding the leaves in their natural position around the heart, and tying the outer leaves together by their tips in cone form.

Green Curled. Hardy, finely curled; easily blanched, one of the best. Pkt., 5c.; oz., 15c.; ¼ lb., 50c.

White Curled. Blanches rapidly; excellent, and very tender. Pkt., 5c.; oz., 15c.; ¼ lb., 50c.

Broad-Leaved Batavian. (*Escarolle.*) Leaves long and broad, thick and succulent. Pkt., 5c.; oz., 15c.; ¼ lb., 40c.

GREEN CURLED ENDIVE.

EGG-PLANT.

One ounce will produce about 2,000 plants.

The Egg-Plant will thrive well in good garden soil. The seed should be sown in hot-bed or warm green-house in March or April, and when about an inch high, put in two-inch pots. Plant out about June 1, $2\frac{1}{2}$ feet apart. If no hot-bed is at hand, they can be grown in any light room where the temperature will average 75 degrees.

New York Improved. Purple: the best variety; very large, oval, heavy fruit. Pkt., 10 cts.; oz., 50 cts.; $\frac{1}{4}$ lb., \$2.00.

Early Long Purple. Fruit longer and smaller than the above sort; hardy, productive. Pkt., 5 cts.; oz., 25 cts.; $\frac{1}{4}$ lb., 75 cts.

Black Pekin. Very fine, large, globular fruit, of a dark, glossy purple color; early, solid. Pkt., 5 cts.; oz., 30 cts.; $\frac{1}{4}$ lb., \$1.00.

NEW YORK EGG-PLANT.

KALE, or BORECOLE.

Sow about the middle of April in prepared beds, covering thinly and evenly; plant out in June, following the directions recommended for cultivating cabbage.

KOHL-RABI.

Dwarf Green Scotch. Very dwarf and spreading, best strain.....	Per Pkt.	Oz.	$\frac{1}{4}$ Lb.
	\$0.05	\$0.10	\$0.20

Siberian. Improved. Uniformly dwarf, green curled; hardy.....	.05	.10	.20

KOHL-RABI.

One ounce will sow 200 feet of row.

Cultivate the same as the cabbage, but in hoeing be careful not to throw earth into the heart of the plant or the bulb cannot be formed.

Early White Vienna. Handsome and delicate.....	Per Pkt.	Oz.	$\frac{1}{4}$ Lb.
	\$0.05	\$0.25	\$0.75
Early Purple Vienna. Similar to the preceding, except in color.....	.05	.30	.85

LEEK.

One ounce will sow 200 feet of drill.

The Leek is very hardy and easily cultivated; it succeeds best in a light but well-enriched soil. Sow as early in Spring as practicable, in drills one inch deep and one foot apart. When six or eight inches high, transplant in rows 10 inches apart each way, as deep as possible, that the neck, being covered, may be blanched.

Large American Flag. The most desirable for market or family use.....	Per Pkt.	Oz.	$\frac{1}{4}$ Lb.
	\$0.05	\$0.20	\$0.50
Musselburgh, or Scotch. A very large variety of superior quality.....	.05	.20	.60

AM. FLAG LEEK.

**We deliver FREE, by mail, all seeds in
Packets and Ounces.**

LETTUCE

One ounce will sow 200 feet of drill.

Sow in the open ground as early as possible, barely covering the seed. If the hot-bed is used, let it be started quite early. Give but little heat and plenty of water and air on fine days. Let plants in the bed be about four inches apart. As they increase in size thin them out, or they will become weak. Lettuce generally runs to seed very early in the season, so that after warm weather sets in it is difficult to find a good head of Lettuce in most gardens. The remedy is to plant for late use in a cool, partially shaded place, in rich soil.

CURLED or LOOSE-LEAVED VARIETIES

	Per Pkt.	Oz.	¼ Lb.
Early Curled Simpson. One of the earliest and best for market.....	\$0.05	\$0.15	\$0.40

BOSTON MARKET LETTUCE.

PARIS COS LETTUCE.

MELON, MUSK.

One ounce will plant 80 hills.

After all danger of frosts is over and the ground has become warm and dry, plant in hills 4 to 6 feet apart each way, 6 to 12 seeds to a hill. When up, and all danger of insects has passed, pull out all but 3 plants. Cultivate until the vines cover the ground, and pinch the ends of the growing shoots to induce early fruiting. Ashes, lime, or even dry road dust, is excellent to sift over young plants when the dew is on, to prevent the attacks of insects.

	Per Pkt.	Oz.	¼ Lb.

MUSHROOM SPAWN.

Ten pounds will spawn about ten feet square.

Mushroom beds may be made in a warm, dry cellar, or in any building where the frost does not penetrate, and in the open air during the Summer and Fall months. Having procured the spawn, the next thing to be attended to is to make preparation for the beds. About a fortnight or three weeks before the beds are to be made collect a

MUSHROOMS.

quantity of fresh horse manure without the straw; place it in a heap under cover, and as it heats keep turning it over once or twice a week, until the fiery heath has become exhausted, which will require from ten to fourteen days time. When the manure is in a condition to be made up, lay out your bed according to your requirements, say three feet wide, ten feet long, and from two to three feet deep; beat it down well with the back of the spade as the process of building goes on. When the bed has been made some time, say a week or thereabouts, and the heat sufficiently declined to a temperature of 65 or 75 degrees, the spawn may be put into it. Break the spawn in pieces two inches square, and put them six inches apart, all over the bed; then cover the bed with two inches of rich soil, the stronger the better, but of a loamy quality, beating it down firmly with a spade. The soil used for this purpose should be in pliable condition, and not too wet or over-dry. Cover the bed with a foot of dried straw or hay; examine

once a week to see if the manure is not heated while in this condition; if so, it will destroy the spawn, and necessitate spawning a second time. If everything goes on well, you may expect mushrooms in about five or six weeks. When the soil looks dry, give a gentle watering with tepid water, using a rose on the watering pot. If the beds are made out-of-doors, protect them from rain by covering them with shutters or sashes. Good crops of mushrooms can be obtained by spawning the hot-beds in spring. They can also be raised in pots, boxes or anything capable of keeping the materials together, and placed in a cellar, closet or green-house.

Marshall's English Spawn. Lb. 15 cts., 10 lbs. \$1.25. Prices of larger quantities on application.

Pure Culture Spawn (American). Lb. 15 cts., 10 lbs. \$1.25. Prices of larger quantities on application.

If by mail, add 10 cts. per pound for postage.

MUSTARD.

One ounce will sow 75 feet of drill.

For early crops the seed may be sown in a hotbed in March, and for general crop at frequent intervals through the Spring, in drills from eight to twelve inches apart.

White London. The best variety for salad.....Per oz. 5c., ¼ lb. 10c., lb. 30c.
Giant Southern Curled. Very large leaves.....“ “ 5c. “ 10c. “ 30c.

OKRA, OR GUMBO.

One ounce will plant 100 hills.

This plant is extensively cultivated for its green pods, which are used in soups and stews, and are very wholesome and nutritious. Sow about the middle of May in drills three feet apart, and thin out the plants to one foot apart.

	Per Pkt.	Oz.	¼ Lb.
Improved Dwarf Green. Very early; smooth pods.....	\$0.05	\$0.10	\$0.25
Improved Long Green. Long ribbed pods; very productive05	.10	.25
White Velvet. This Okra takes its name from the smoothness of its pods, which are round.....	.05	.10	.25

ONION

One ounce will sow 100 feet of drill.

Sow in drills one foot apart and cover about one-third of an inch, treading or rolling after sowing so that the hot dry atmosphere may not destroy the sprouting seed. When three inches high thin to two inches apart. Stir the ground freely without disturbing the young plants and keep free from weeds.

	Per Pkt.	Oz.	¼ Lb.
White Early Barletta. A small white Italian sort.....	\$0.05	\$0.30	\$1.00
“ Queen. Pure white, small, flat; fine for pickling05	.30	1 00

RED WETHERSFIELD ONION.

WHITE GLOBE ONION.

ONION SETS

Three quarts will plant 100 yards of row.

Onion sets should be planted early in the Spring in rows 12 inches apart, placing the sets four inches apart in the row. When raised from sets, the onion can be used in the green state in June, or they will be matured by July.

Prices subject to change.

	Per Pt.	Per Qt.	Per Pk.
Red Onion Sets	\$0.15	\$0.30	\$2.00
White Onion Sets15	.30	2.00
Yellow Onion Sets15	.30	2.00
White Multipliers15	.30	2.00
Shallots15	.30	2.00

If to be forwarded by mail, add 10 cents per quart for postage.

ORACH, or FRENCH SPINACH

Sow early in Spring; cultivate and use like Spinach.

	Per Pkt.	Oz.	¼ Lb.
Red. Distinct; dark red leaves.....	\$0.05	\$0.15	\$0.30
White. Pale green leaves, almost yellow.....	.05	.15	30

PARSLEY

One ounce will sow 150 feet of row.

Sow as early as possible in Spring, first soaking the seed three hours in water; cover lightly raking the soil fine and level on top. The drills should be about fifteen inches apart. The plants appear in two to four weeks. Thin to three inches apart.

DOUBLE CURLED PARSLEY.

	Per Pkt.	Oz.	¼ Lb.
Extra Double Curled. A beautifully curled dwarf variety.....	\$0.05	\$0.10	\$0.25
Moss Curled. A distinct variety; beautifully crimped and curled..	.05	.10	.25

	Per Pkt.	Oz.	¼ Lb.
Fern-Leaved. The best garnished variety ever introduced.....	\$0.05	\$0.10	\$0.25
Hamburg or Rooted. Grown for its roots which are used in flavoring soups.....	.05	.10	.30
Plain. A plain-leaved variety; fine for flavoring.....	.05	.10	.20

PARSNIP

One ounce will sow two hundred feet of drill.

Sow Parsnip seed as early in Spring as the weather will permit, in drills fifteen to eighteen inches apart, covering with fine soil to the depth of half an inch. The soil should be rich and deep; manured, if possible, the previous Autumn. Thin out the young plants to about six inches apart and keep the surface of the ground open and free from weeds. It is perfectly hardy and may remain in the ground through the winter; indeed, the fine sugary flavor is only perfected by a severe frost.

	Per Pkt.	Oz.	¼ Lb.
American Hollow Crown. Long, smooth and milky white; the finest stock of Parsnip in this country.....	\$0.05	\$0.10	\$0.30
The Student. A fine variety, recommended for small gardens.....	.05	.10	.20
Early Round. Adapted to shallow soils; early and good flavor.....	.05	.10	.20

PEPPER

One ounce will produce two thousand plants.

Sow in hot-beds in March, and, when the soil has become warm, set in rows 2 feet apart and 18 inches in the rows; hoe frequently. The plants may also be forwarded in small pots.

	Per Pkt.	Oz.	¼ Lb.
Cayenne, Long Red. Bright-red slender pods, 3 inches long.....	\$0.05	\$0.25	\$0.60
Chinese Giant. Very large, bright scarlet.10	.40	1.25
Golden Dawn, Sweet. Distinct and of mild flavor; small.....	.05	.25	.75

	Per Pkt.	Oz.	¼ Lb.

Sweet Spanish. Large, mild; used for salad.....	0.05	0.25	0.75

RUBY KING PEPPER

PEAS

One quart will plant about 125 feet of drill.

Peas mature earliest in a light, rich soil; for general crop a rich deep loam is the best. When grown in gardens sow in double rows six to eight inches apart, the rows two to four feet apart, the tall ones requiring brush. Commence sowing the extra-early varieties as early as the ground can be worked in February or March; and continue for a succession every two weeks until July.

We supply packets of peas at 10c. each, postpaid.

EXTRA-EARLY PEAS

Gradus Peas.

	Height in Feet	Pint	Quart	Peck

Mammoth Melting Sugar. One of the best edible pod sorts.....	5	.20	.35	2.50

We supply packets of peas at 10c. each, postpaid.
If ordered to go by Mail, add 15c. per quart for postage.

Potatoes

GROWN EXPRESSLY FOR SEED.

Ten bushels cut tubers will plant
one acre.

The potato, like all robust-growing vegetables, can be grown with varying success on soils of all kinds and in all conditlons of fertility, but the soil best suited to it is a sandy loam. Manure is applied either in rows or hills, or broad-cast over the hills and ploughed in—the latter in most cases being preferable. In highly-enriched soils the plants are more liable to disease than when grown in soil that is naturally good. Plant as early in Spring as the ground can be had in fair working order, in hills or ridges, about three feet apart, cover lightly with soil, about four inches deep.

NOROTON BEAUTY POTATO.

Early Varieties.

Beauty of Hebron. Slightly flesh-colored skin, with pure white flesh. Very productive and of the finest quality.....	Per Pk. \$0.80	Bus. \$2.25	Bbl. \$4.25

Uncle Sam. Handsome shape, good size, fine quality.....	.80	2.25	4.25

Prices of Potatoes are subject to market changes. Potatoes are forwarded by express or freight as directed, purchaser paying charges.

LARGE CHEESE PUMPKIN.

Pumpkin.

One ounce will plant 50 hills.

The common practice is to drop two or three seeds in every second or third hill in the cornfield, but if cultivated on a large scale the seed may be sown in hills eight feet apart each way, four plants to each hill, and otherwise treated in the same manner as melons or cucumbers.

	Per. Pkt.	Oz.	¼ Lb.
Large Cheese. Flat, the best variety for family usc.....	\$0.05	\$0.10	\$0.20
Early Sugar. Fine grained, small yellow.....	.05	.10	.25
Jonathan. Large, white crookneck, fine for pics.....	.05	.10	.25
Mammoth King. Grows to an enormous size.....	.05	.15	.50
Mammoth Tours. A very large French variety.....	.05	.10	.25
Connecticut Field. Grown in corn-fields for stock.....	.05	.10	.15

RADISH.

One ounce of seed will sow one hundred feet of drill.

Radishes require a light, loamy soil, moderately fertile, which should be deeply dug and well pulverized. The situation should be warm and sheltered. For an early supply sow in January or February in hot-beds, keeping well ventilated. In May they may be sown out-of-doors. Successive sowings should be made every two weeks. Radishes to be crisp and tender should make a rapid growth.

FRENCH BREAKFAST RADISH.

	Per Pkt.	Oz.	¼ Lb.
Turnip, Early Scarlet. Very early. The French favorite.....	\$0.05	\$0.10	\$0.30

“ Iceberg. Pure white, of fine flavor; suitable for forcing.....	.05	.10	.25
Winter Scarlet Chinese. Very handsome and distinct, and keeps well..	.05	.10	.25
“ Long Black Spanish. The popular Winter sort.....	.05	.10	.25
“ Half-long Black Spanish. Very fine strain.....	.05	.10	.25
“ Round Black Spanish. Fine for Winter.....	.05	.10	.25

SCARLET TURNIP WHITE-TIPPED
RADISH.

RHUBARB.

A deep rich soil, trenched to the depth of 2 ft., is best for Rhubarb. It is usually propagated from plants.

	Pkt.	Oz.	¼ Lb.
Linnaeus. Early, large, tender.....	\$0.05	\$0.20	\$0.50
Victoria. Large, late, good old sort.....	.05	.20	.50
Rhubarb Roots, strong, 10 cents each; \$1.00 per doz.			

SALSIFY or OYSTER PLANT.

An ounce will sow fifty feet.

A most delicious vegetable. It is used stewed, boiled, or fried, and sometimes as a salad. When cooked it has an oyster flavor. Cultivation the same as for Carrots or Parsnip.

	Per Pkt.	Oz.	¼ Lb.
Mammoth Sandwich Island. True. Large and superior; very fine flavor	\$0.05	\$0.20	\$0.50
Long White French. Delicious when cooked; roots of medium size	.05	.15	.40
Long Black, or Scorzonera. Resembles long white, but black	.05	.20	.60

LARGE-LEAVED FRENCH SORREL.

SORREL.

One ounce will sow 150 feet of drill.

This plant is considered valuable for its acid properties; mixed with salads, it imparts an agreeable and refreshing flavor. Sow in shallow drills twelve inches apart, and thin out the young plants to six inches.

Large-Leaved French. Pkt. 5c., oz. 15c.,
¼ lb. 40c., lb. \$1.25

SPINACH.

One ounce will sow 100 feet of drill.

10 to 12 lbs. an acre.

This is best developed and most tender and succulent when grown in very rich soil. For Summer use sow early in Spring in drills fifteen inches apart, and make successive sowings every two weeks. For Spring use sow in September, and cover lightly in November with light litter.

LONG STANDING SPINACH.

	Per Pkt.	Oz.	¼ Lb.	Lb.
Viroflay Thick-Leaved. A standard sort, equally good for early Spring or Fall sowing; leaves are thick, succulent, and tender	\$0.05	\$0.10	\$0.15	\$0.35
Long Standing. Of delicious, tender quality; dark green	.05	.10	.15	.35
Savoy-Leaved, or Bloomsdale. Large, tender curled leaves	.05	.10	.15	.40
Large Thick-Leaved. One of the best market sorts	.05	.10	.15	.35
Round Thick-Leaved. The variety in most general use; equally good for Spring or Autumn sowing	.05	.10	.15	.35
Victoria. A new variety with thick dark-green leaves. The best long standing Spinach	.05	.10	.15	.40
New Zealand. Makes a low spreading plant from which delicious, tender greens can be gathered the entire Summer. May be started in a hot-bed and transplanted or sown out-of-doors when the ground is warm, allowing two feet between the plants	.05	.10	.30	.90

SWISS CHARD or SPINACH BEET.

This Beet produces leaves only; excellent as greens. Cultivate same as spinach, sowing the seed in early Spring, in drills 1½ ft. apart. Good cultivation will increase the delicacy and tenderness of the leaves.

Swiss Chard. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 50c.

SUMMER CROOKNECK SQUASH

SQUASH

One oz. Early Squash will plant about twenty-five hills. One oz. Marrow Squash will plant about fifty hills.

The Squash succeeds best in good rich soil. It is not advisable to plant before May 15th. Sow in hills in the same manner as cucumbers and melons.

Bush Varieties

	Per pkt. oz. ¼lb.		
Early White Scallop Bush. A good early shipping variety,	\$0.05	\$0.10	\$0.25
Golden Custard. Mammoth strain of the Golden Bush..	.05	.10	.30
Giant Summer Crookneck Double the size of the above.....	.05	.15	.40
Summer Crookneck Yellow fruit; distinct; best for summer.....	.05	.10	.25
Silver Custard. A mammoth strain of the Early White Bush.....	.05	.10	.30
Giant Summer Straightneck. Most of them are <i>straight-necked</i>05	.10	.25
Cocozell Bush. A fine variety; oblong shape; skin smooth, dark green, marbled yellow or pale green.....	.05	.10	.25

Running Varieties

Boston Marrow. Oval; bright orange. flesh yellow and fine.....	.05	.10	.25
Cocoanut. Of first-rate quality and very prolific.....	.05	.10	.30
Delicata. Orange yellow, striped green; small size, but very prolific; it is extra early, very solid, and a good keeper; flesh dry and of fine quality,	.05	.10	.30
Essex Hybrid. A good fall and winter sort.....	.05	.10	.40
Fordhook. One of the best winter sorts; fine quality.....	.05	.15	.30
Hubbard. Well known and liked for late use.....	.05	.10	.30
Mammoth Chili. Rich orange flesh; grows to an enormous size.....	.05	.15	.50
Marblehead. Gray Skin; very productive, fine keeper.....	.05	.10	.30
Orange Marrow. Quite distinct; very early and of most delicate flavor; suitable for fall or winter.....	.05	.10	.30
Pineapple. Peculiar shape, white skin and flesh; fine late sort..	.05	.10	.25
Perfect Gem. Round, white, fine quality; good for fall or winter... ..	.05	.10	.30
Vegetable Marrow. A favorite English sort; skin greenish yellow; flesh white.....	.05	.10	.30
Italian. (<i>Cocozelle di Napoli</i>). Grows about 20 inches long, with a diameter of 3 or 4 inches Skin smooth, dark green, marbled yellow or pale green. In Italy it is eaten when quite young.....	.05	.10	.25

HUBBARD SQUASH

WHITE BUSH SCALLOP SQUASH

PERFECTION TOMATO.

EARLY RUBY TOMATO.

TOMATO.

One ounce will produce one thousand plants.

Sow thinly about the first week in March in a hot-bed, greenhouse, window or sitting-room, where the temperature is never below 60°. When two inches high set out the plants in boxes about four inches apart, or pot singly. About the first of June they may be transferred to the open ground. Set them deeply four feet apart, and a shovelful of rotted manure should be mixed in the earth of each hill. If the vines are trained on trellis the fruit will be finer and larger.

Marshall's Prolific. The finest medium-sized tomato in existence, either for forcing or out-door planting. It is an enormous cropper, producing large clusters of bright scarlet fruit. The quality and flavor is excellent, flesh solid, having very few seeds, smooth and medium size.....

Stirling Castle. Excellent for forcing as well as out-door culture. Fruit is of medium size, reddish-scarlet in color, and of very delicious flavor.....

Best of All. An excellent sort for forcing, or early out-door crop. Sets freely and an immense cropper. Color deep scarlet.....

Lorillard. Chiefly valuable for forcing under glass.....

Aeme. Medium size fruit; of a purplish-pink color, tinged with purple

Beauty. Large, smooth, dark-pinkish red; thick flesh; regular.....

Crimson Cushion. Extra large, handsome; bright crimson.....

Dwarf Champion. The plant is of dwarf and compact growth.....

Early Ruby. The earliest large tomato grown; of good form, rich crimson color.....

Favorite. Large, smooth, productive and a good shipper.....

Golden Queen. A really good yellow sort of first-class quality; large and solid.....

Matchless. Extra-large, smooth and handsome; bright red; very solid.

Mikado. Very large, fairly smooth; color purplish red.....

Perfection. Early, regular and productive; reddish scarlet.....

Ponderosa. The largest variety in cultivation; very solid and meaty.

Stone. Very large, perfectly smooth; fine bright scarlet.....

Trophy, selected. One of the best; fruit large, smooth, bright red solid and of good flavor.....

Yellow Plum. Round and regular; bright yellow; used for pickles....

Red and Yellow Pear-Shaped. Fine for preserving and pickling

Yellow Peach. Very Handsome in form, and of a beautiful clear yellow color

Red and Yellow Cherry. Small fruits used for pickles; very handsome

Strawberry, or Winter Cherry. A distinct species with small fruit incased in a husk

Tomato Plants. Ready in June. 25 cts. per doz. \$1.50 per 100.

Lawn Grass Mixtures

Marshall's Special Lawn Grass Mixture

Marshall's Special Lawn Grass Seed produces a perfect and enduring lawn of luxuriant richness, with closely interwoven, firm and elastic turf, and it is usually ready for cutting in six weeks from time of sowing. This Lawn Grass is composed of a combination of various fine-leaved, deep-rooting grasses of interweaving habit, that flourish under our varied conditions, soils and climates, growing during different seasons of the year, so that a deep green, smooth and velvety sward, free from clumps, is maintained without burning brown in Summer.

Price: Per peck, \$1.50; per bushel, \$5.00.

Central Park Lawn Grass

Our Central Park Lawn Grass will produce an even, dense growth of permanent sward as early in the season as it is possible to do. This mixture contains no annual grasses for making quick show to the detriment of a good lawn, but only those of lasting value and hardiness, which, when once established, need no reseeding for years. Our seed, which we know to be as pure as can be found anywhere, is of the best varieties, best suited for even and permanent growth; it is carefully cleaned and as free as it is possible to make it from foreign matter.

One pint will sow 10 x 15 feet. Per pint, 10 cts.; by mail, 13 cts.
One quart will sow 15 x 20 feet. Per quart, 20 cts.; by mail, 25 cts.
Four quarts will sow 25 x 50 feet. Price, 60 cts.; by mail, 80 cts.
One peck will sow 50 x 50 feet. Price, \$1.10.
One bushel (20 lbs.) will sow 100 x 100 feet. Price, \$4.00.

Marshall's Shady Place Lawn Grass.

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees.

Price, per quart, 25 cents; by mail, 30 cents. 4 quarts 90 cts.
Per peck, \$1.65; per bushel (20 lbs.), \$6.00.

Marshall's Terrace Mixture Lawn Grass.

A special mixture of grasses best suited for sowing on terraces and side hills—grasses that produce strong spreading roots, thus preventing heavy rains from washing them out; that will withstand drought and exposure, thrive on shallow soils, and at the same time produce a rich, green turf throughout the season.

Price, per quart, 30 cents; per peck, \$1.75; per bushel (20 lbs.) \$6.00.

Permanent Grass for Golf Links. Fair Green Mixture.

For the grounds in general. Per bushel (20 pounds), \$3.00.

Putting Green Mixture.

A mixture of extra-fine grasses that will make a close, firm, green and lasting turf, which will improve with tramping.

Per peck, \$1.75; per bushel (24 lbs.), \$6.00.

Tennis Court Mixture.

A mixture of extra-fine grasses peculiarly adapted for tennis courts. This mixture will make a firm, green and lasting turf of the finest texture that will improve with tramping. Per peck, \$1.75; bushel (24 lbs.), \$6.00

Marshall's Special Mixture, for Meadows and Permanent Pasture.

Our Pasture Mixture is made up of the Grasses best calculated to afford an abundant and nutritious food supply for stock. For all ordinary permanent pasturage it will be found entirely satisfactory. If your fields are old and worn out, it will pay to plow up and seed again with Permanent Pasture Mixture, after which you will soon be cutting heavy crops. You will be able to cut two good crops, each year, whereas from Timothy only you can cut but one.

Sow three bushels to acre. In ordering state whether for light or heavy soil.

For Hay and Permanent Pasture for Light Soils,	}	\$2.50 per bushel of 14 lbs.
“ “ “ “ “ Medium Soils,		20 bushel lots, \$2.45 per bushel
“ “ “ “ “ Heavy Soils,		50 “ 2.40 “

SWEET PEAS

There are no Annual Climbers that are more popular or more admired by everybody than Sweet Peas. They are of the easiest culture, unrivaled for cutting, delightfully fragrant and of the brightest and daintiest colors imaginable. As soon as the ground can be worked in the Spring, sow the seed in trenches at least 6 inches in depth, then as the plants grow fill in the soil about one inch at a time until the trenches are full, taking care not to cover the young plants. Liquid manure applied occasionally will be found very beneficial. Pick the flowers frequently, for if allowed to form seed the plants will soon stop blooming.

Spencer Type Sweet Pea.

DAHLIAS

The renewed popularity of the Dahlia in recent years has brought out many new sorts, and any one wishing to get the cream will find most of them in our collection, which can be recommended either for growing in competition, market purposes, or private collections, and embrace all classifications.

SUPERB NEW CACTUS DAHLIAS

The following are all new varieties, and comprise the cream of the novelties, which have been grown here and proved to be of extra merit.

Aschenbrodel. The base of the petals gold shading to rose-pink.

Burbank. Very rich brilliant dazzling red. Fine flower.

Comrade. Fawn color at the base, shading to pink at the tips of the petals.

Flora. The best white, having a long, broad, flat petal.

H. F. Robertson. Pure deep yellow, petals are narrow from base to tip.

Ianthe. Yellow on buff ground, edged and tipped pale pink.

J. B. Briant. Golden yellow, tinting to creamy yellow at the tip of petals.

Mavis. Salmon, with pure yellow at the base of the petals.

Mr. J. Harrison. Large crimson.

Mrs. James Mace. A light shade of pink, shading to white. Large flower.

Oliver Twist. Bright crimson. The petals are peculiarly twisted.

Prince of Yellows. Very large, with broad petals; rich canary yellow.

Strong roots of the above,
35c. each; \$3.50 per dozen.

GIANT FLOWERING DAHLIAS

These are the largest and most perfect double-flowering Dahlias.

Cuban Giant. An immense ball of bright maroon.

Gettysburg. A bright rich scarlet.

Gigantea. Creamy white. Very large.

Mad. van Den Dael. Color shell pink, with deeper markings.

Mrs. Roosevelt. A delicate shade of soft pink.

Pendent. Very large; bright crimson maroon. Profuse bloomer.

Souv. de Gustave Doozan. A beautiful red; flowers from 6 to 8 inches across.

Yellow Duke. The largest yellow.

Strong roots. 20c. each; \$2.00 doz.

Cactus Dahlia.

SELECT LIST OF CACTUS DAHLIAS

Containing a very choice collection of the leading varieties.

Amos Perry. The best bright scarlet, long twisted petals.

Eva. Pure white. An exceedingly free bloomer.

F. H. Chapman. Very fine; shaded light orange.

Florence M. Stredwick. Pure white of Collarette form.

Harbor Light. Immense flowers, orange-red overlaid with flame.

Lyric. Flowers large, yellow at the base shading to a rich bronze-red.

Mabel Tullock. Color a beautiful soft rosy-pink. Highly recommended.

Maid of Honor. A superb variety, color peach-blossom pink.

Northern Star. Intense crimson scarlet; fine Cactus form.

Pink Pearl. A pleasing shade of rose-pink, shading to pearl.

Richard Dean. Very fine; vermilion-scarlet, tipped white.

Sirius. Bright golden yellow, heavily striped with scarlet.

Strong field grown roots.
25c. each; \$2.50 per doz.

DAHLIAS—Continued

- Madame Crozy. Bright crimson scarlet, bordered with golden yellow. 4 ft.
- Mont Blanc. White, 3 ft.
- Martha Washington. Intense pink. 5 ft.
- Queen Charlotte. Rich scarlet crimson, broadly banded with canary yellow. 4 ft.
- Tarrytown. Flowers deep crimson. 3½ ft.

French Canna.

Strong dormant roots of the above varieties. Each, 10c.; doz., \$1.00; 100, \$6.00.
Plants ready in May. Each, 15c.; doz., \$1.50; 100, \$10.00.

CINNAMON VINE

Dioscorea Batatas. A rapid growing summer climber, with bright green glossy foliage, and spikes of cinnamon-scented white flowers. Each, 5c.; doz., 50c.; 100, \$3.50.

GLADIOLUS

The most attractive of all Summer-flowering bulbs are the Gladioli. Our list comprises only the best selections both in our mixture and named sorts. Their cultivation is very simple, as they will thrive in any ordinary garden soil, but amply repay care and liberal feeding by enhancing size and beauty.

GLADIOLUS IN MIXTURE

Our mixtures are made up from fine varieties, and are all selected first-size bulbs.

	Doz.	100
American Hybrids. This is our general mixture, and is composed of fine sorts in all colors, in first-size bulbs only	\$0.25	\$1.50
Childsii, Mixed. Superb large-flowered	.50	3.00
Lemoine's Butterfly Hybrids Mixed. The remarkable richness of the colorings of this class rivals the finest orchids30	2.00

AQUATIC PLANTS FOR AQUARIUMS AND FOUNTAINS

	EACH.	DOZ.
Cyperus alternifolius. An excellent plant for growing in water or damp places.	\$0.15	\$1.50
Eichhornia crassipes major (<i>Water Hyacinth</i>). A very showy floating aquatic, bearing flowers of a delicate lilac-rose in trusses like a Hyacinth.	.20	2.00
Limncharis Humboldti (<i>The Water Poppy</i>). A pretty little aquatic with oval leaves and yellow flowers. Fine for growing in shallow water or an aquarium20	2.00
Nelumbium speciosum (<i>Egyptian Lotus</i>). The well-known species. The flowers, which are about a foot across when fully opened, are of a deep rose color, creamy white at base of petals; exquisitely fragrant.		
Each 75c. and	1.50	
luteum (<i>American Lotus, Water Chinquepin</i>). A superb variety with yellow flowers. This variety is indigenous in the Western and Southern States. It has been introduced into the Eastern States, where, as a rule, it grows as freely as any native plant.....	.75	
Nymphaea odorata. This is the fragrant Pond Lily of the Northeastern United States. Flowers white20	2.00
odorata gigantea. Rice-field Water Lily of the Southeastern United States; leaves large, 12 to 16 inches across, green, under side at times tinged purplish toward margin, edge often turned up, flowers 4 to 7 inches across, pure white. A superb variety.....	.25	2.50
odorata sulphurea. One of the very best hybrid Nymphaeas. The greatly fragrant flowers are sulphur-yellow, standing 3 to 4 inches out of the water; leaves floating, as in the type, but blotched reddish on the under side; distinct.....	.50	5.00
Pistia Stratiotes (<i>Water Lettuce</i>). A very ornamental aquarium plant; forms a rosette of light green velvety leaves.....	.15	1.50

FERNS AND DECORATIVE PLANTS

AGAVE Americana. Fine for lawn and porch decorations. 50 cts.; specimens, \$2.50 to \$10.00.

A. Americana variegata. 75 cts.; specimens, \$2.50 to \$5.00.

ARAUCARIA excelsa (Norfolk Island Pine). 6-inch pots, extra fine, \$2.00 each; \$20.00 per doz.

ASPARAGUS plumosus nanus. Graceful climbing Asparagus; beautiful bright green feathery foliage. Succeeds under almost any condition. Strong plants, 15 cts. each, \$1.50 per doz.; extra size, 3½-inch pots, 25 cts. each, \$2.50 per doz.

ASPIDISTRA lurida. Fine, dark broad green leaves; very robust grower and invaluable for the house. \$1.00 to \$2.00.

A. lurida variegata. Foliage striped with white; a charming variegated form of the above. \$1.25 to \$2.50.

DRACAENA indivisa. Long graceful foliage; extensively used for vases. Stands full sun exposure. 25 cts. to \$2.50.

FICUS elastica (Rubber Plant). One of the best plants for room decoration. 50 cts. to \$1.00.

PANDANUS Veitchii. Graceful curved light green leaves beautifully marked with broad stripes and bands of pure white. Distinctly ornamental. Fine plants, 5-inch pots, \$1.50; 6-inch pots, \$2.00.

BOSTON FERN. One of the most useful and ornamental of the "Sword Ferns." Each 35 cts. to \$1.00.

NEPHROLEPIS SCOTTII (New Scott Fern). Fine for house decoration. Each 50 cts. to \$2.00.

TABLE FERNS. In variety for fern dishes and ferneries. Each 8 cts.; 100 \$6.00.

PALMS

COCOS Weddellana. The most graceful of the smaller growing Palms. Admirable for fern dishes and table decoration. Fine plants, 3-inch pots, 25 cts. each.

KENTIA Belmoreana. The most popular parlor palm grown. Nice bushy plants. 2½-in. pots, 25 cts. each; 4-in. pots, 75 cts. each; 5-in. pots, \$1.50 each.

KENTIA Forsteriana. The best Palm for all purposes, and the most graceful for decorations. Nice bushy plants, 4-inch. pots, 75 cts. and \$1.00 each; 5-in. pots, \$1.50 each; 6-in. pots, \$2.00 each.

JAPAN FERN BALLS

Davallia Bullata

Fern Roots, about the size of a pencil, woven outside and around a ball of moss.

The roots produce beautiful sprays of ferns from eyes, or buds, at nearly every inch of their length. Thus the whole surface soon becomes covered with fern sprays.

Dormant balls, 5-inch diameter. Each, 35 cts.

Dormant balls, 7 to 9-inch diameter. Each, 50 cts.

New importation arrives in December.

“PLANET JR.” TOOLS FOR 1910

Space will not permit illustrating and describing all of the “Planet Jr.” Tools, but we will gladly send fully illustrated catalogue free for the asking to any address. Remember, “Planet Jr.” machines are the recognized standards throughout the world, and are guaranteed by the manufacturers.

“Planet Jr.” No. 16.

No. 16 SINGLE WHEEL HOE

Price \$6.00

A light, inexpensive and extremely efficient tool. Fitted with plow, two hoes, three cultivator teeth, two rakes and leaf lifter, which are all easily adjusted.

No. 17 SINGLE WHEEL HOE

Price \$5.25

This tool is identical with No. 16, but has only a pair of 6-inch hoes, a plow and a set of cultivator teeth—an outfit sufficient for most garden work.

No. 17½ SINGLE WHEEL HOE

Price \$4.75

This machine is similar to No. 16, except it has no plow, but it has a leaf lifter. Thousands of them are sold annually for cultivating sugar beets and onions.

No. 18 SINGLE WHEEL HOE

Price \$3.75

Is the same tool as above, but has one pair of 6-inch hoes only.

No. 11 DOUBLE WHEEL HOE

Price \$9.50

One pair 6-inch hoes; one pair 4-inch hoes; two pairs hollow steel cultivator teeth; one pair plows; two 3-tooth rakes; two 5-tooth rakes, and two leaf lifters.

No. 12 DOUBLE WHEEL HOE

Price \$7.35

The same as No. 11, but does not have the 7-tooth rake and the pair of short hoes.

“Planet Jr.” No. 11.

No. 4 COMBINED SEEDER AND WHEEL HOE

Price \$11.50

The drill is the same style as the No. 3 Seeder, but smaller. By moving only one bolt the drill is taken off and the tool frame attached, making it one of the best of the “Planet Jr.” Single Wheel Hoes. This gives you the “whole business” in one tool.

No. 3 SEEDER

Price \$11.00

Planting in rows and thinking afterward is a terrible time-waste. The No. 3 Seeder puts the seed right on the spot where the hill is wanted. Plants 4, 6, 8, 12 or 24 inches apart, or in a continuous row if desired. Changed in a moment.

THE “PLANET JR.” GRASS EDGER

Price \$6.25

It will do either straight or curved edging at a speed of a mile an hour. It should be the constant companion of the lawn mower. Strawberry growers will find the Grass Edger, with the hoes removed, a rapid and perfect tool for cutting off surplus runners.

“FIREFLY” PLOW

Price \$2.50

Invaluable for use in small gardens. Moldboard of tempered and polished steel. The depth is easily and quickly changed.

Coldwell's Grand Ball Bearing Lawn Mower

The Grand Ball-Bearing Lawn Mower

The "Grand" is the best Ball-Bearing Mower on the market. It has 10-inch drive wheels; five blades in the revolving cutter, which is of large diameter, thus enabling it to cut high grass. The adjustment of this machine is accomplished by means of a single screw conveniently located in the end of revolving cutter. This one screw does it all.

NET PRICES

LAWN MOWER GRASS CATCHERS

Net Prices: 12 in., \$1.50; 14 in., \$1.60; 16 in., \$1.85; 18 in., \$2.00; 20 in., \$2.15.

LAWN MOWER PARTS

We can supply parts of any of the Mowers we list at reasonable prices. When ordering give the number of the part and name of machine or send the broken part.

CHAIN ROLLER GOLF MOWER

This mower is made to meet the demand for a machine that will more perfectly cut borders, verges, etc., and yet retain all the other features necessary in a mower for general work. The great advantage of this mower is the substitution of a bicycle chain for the gears generally used in this style of mover. This reduces the friction to a minimum. The machine with six blades is highly recommended by most of the leading golf clubs in America for work on putting-greens.

NET PRICES

12 in., 4 blades, \$10.50; 6 blades.....	\$11.50

Coldwell's Chain Roller Mower

HORSE BOOTS

Made of heavy leather, preventing injury to the sward by the horse's feet.

Price, set of four, \$9.00.

VICTORY BALL-BEARING LAWN MOWER

This mower is fitted with Ball-Bearings. The gear is entirely closed, so that no dirt or cut grass can find its way into the pinions and clog them. The cutter bar is easily removed for sharpening without disturbing the frame. The knives cut the instant the mower is moved.

Ball-Bearings, 10-inch Wheels,
Triple Gear, Four-Bladed Reel.

COLDWELL'S
IMPROVED HORSE
LAWN MOWER

It has side draft attachment to enable the horse to walk on the cut grass only. We secure evenness of cut by an adjustment which raises or lowers the two sides at the same time by means of a simple lever movement; the same lever serves the purpose of raising the knives from the ground when driving over gravel walks or roads.

SPRAY PUMPS AND SPRAYERS

THE LITTLE WONDER SPRAYER

This Sprayer is gotten up to fill the want of a small sprayer for house use. It has a drip cup, so that all liquid dropping goes back in can. With spray overhead as well.

Each.....40c.

THE WONDER SPRAYER

Applies insect and fungus killing fluids to plants in a most satisfactory manner with no waste of material, covering uniformly every portion and crevice.

Each.....50c.

THE QUART GLASS SPRAYER

This is constructed to use a fruit jar, and can be replaced by any one in case of breakage, as there is always one about the house. Nicely painted to protect from rusting. Constructed on the same lines as the Wonder Sprayer.

Each.....75c.

LENOX SPRAYER

For spraying plants indoors and out the Lenox Sprayer is one of the most serviceable devices. It substitutes a misty shower that supplies the plant most naturally and completely, which is necessary to real success with house plants. As a sprayer for using insecticides it is invaluable, ejecting a misty spray and reaching under the leaves where insects thrive.

Price, 50c. each. By Mail, 60c. postpaid.

Extra Rubbers, 20c. each.

Spraying Under the Leaves. \

BLIZZARD HIGH-PRESSURE SPRAYER

An air-force sprayer for potatoes, fruit trees, etc. It is first charged with air and then it does the spraying with very little work. Galvanized iron tank.

Price.....\$2.00.

"AUTO-SPRAY" PUMP

Eight to ten strokes of plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. This means that the 'Auto-Spray' can be charged in fifteen seconds, when it will work uninterruptedly long enough to spray a quarter-acre of potatoes. Capacity 8 gallons.

"SUCCESS" KNAPSACK SPRAYER

This Sprayer is undoubtedly the best and most improved on the market. The tank holds 5 gallons and is made of copper throughout. Pump is fitted with bronze valves and mechanical agitator. This sprayer can be used as a bucket pump by detaching the hand lever. Pump handle can be worked either right or left hand, and drip cup is so arranged that the liquid cannot run over on the operator. The attachment A is used for under-spraying.

Price.....\$15.00

"POMONA" BARREL SPRAY PUMP

Very Powerful and Large Capacity—All Working Parts Bronze.

The best Orchard Barrel Sprayer. It is unusually powerful and of large capacity, fully capable of supplying four leads of hose and eight nozzles. There is nothing about the Sprayer to get out of order, and with ordinary care it will last a lifetime.

"Success" Sprayer.

Pump with Agitator and Hose Coupling	\$14.50
Outfit C. Pump with Agitator, one lead 15 ft., Discharge Hose and Nozzle	18.00

" 2.	" " 5 "	5.50

WINE AND FRUIT MILL

For grinding and pressing grapes, and other kindred fruit, also apples when not too large.

No. 0....	\$10.00	No. 1....	\$12.00
-----------	---------	-----------	---------

UTICA LAWN TRIMMER

Cuts every blade of grass left by a lawn mower close to fences, trees, flower beds, etc. Knives keen edged with a five-inch cut. Can be used with one hand and does better work in one third the time it would take with shears or grass hooks.

Price, \$4.50.

BONE AND SHELL MILL

This Mill is used for crushing oyster shells, grinding bone meal and all kinds of grain.....\$5.00
On Stand 7.00

POST HOLE DIGGER

The blades are 9 inches long, and the handles 5 feet long.

Price, \$1.25.

FARMOGERM

HIGH-BRED NITROGEN FIXING BACTERIA.

All the Nitrates you need for \$2 per acre. Reduce your fertilizer bill 75%.

The use of Farmogerm on the seeds of Peas, Beans, Clovers, Alfalfa, and all other legumes means an earlier and bigger crop and a large amount of Nitrates added to the soil to benefit future crops of other kinds. Ready to use simply by moistening the seeds before planting.

Farmogerm makes nodules on the roots of the plants. Nodules are 8% pure nitrates. Nitrates mean big crops. Wm. Hanna Thompson, M. D., L. L. D., says in the August number of "Everybody's Magazine," "The results reported by numerous farmers show from fifty to one hundred per cent. increase in yield of inoculated seeds over seeds without such preparation."

Raise the biggest and best crop of peas, beans, sweet peas, clovers, alfalfa or vetches you ever had.

Improve your land by the use of Farmogen High-Bred Bacteria which add nitrogen to the soil for future crops.

Prepared for:

Clover,	Canadian Field Peas,
Alfalfa,	Soy Beans,
Garden Beans,	Cow Peas,
Garden Peas,	Vetch,
and all other legumes.	

In acre sizes, \$2.00 per acre.

In garden sizes, 50c. each.

In ordering state what legume you wish to plant. It is impossible to explain this subject fully on a single page of our catalog. Write for our thirty-two page book.

THE DOWLEN TUB-LIFTER

The Dowlen Tub-Lifter consists of one pair of apparatuses as illustrated; operated on opposite sides of the tub and enables the operators to lift heavy and bulky Plant Tubs with a greater ease and security than any other device or contrivance known.

The Tub-Lifter is constructed in a substantial manner, and of the best material, by means of its upper movable guard, keeps the tub from swaying and enables it to handle tubs of various heights, and will last for a lifetime. No one who has even only one Hydrangea in a tub can afford to be without a tub-lifter.

Price, per pair \$3.50

HORTICULTURAL TOOLS AND REQUISITES

ASPARAGUS BUNCHER. Each...\$3.00

\$7.00.

THERMOMETERS.

Distance Scale, metal
frame. Each 50c.

Japan, in tin case, 6 to
12 in. Each 15c. to
30c.

Boxwood. Each \$1.00.

Porcelain Scale, for con-
servatory. Each \$1.50.

Self-registering. Japan-
ned Case, 8 in. size,
\$2.50; 10 in. size, \$3.00;
12 in. size, \$3.50.

Mushroom bed, boxwood, brass tips.
Each \$2.00.

TIN FOIL. Per lb., 16c.; 100 lbs., \$15.00.
Violet. Per lb. 50c.

TOOTH PICKS. Per box, 10c.; doz., \$1.00.

TOOTH PICKS. Wired, per 1000 30c.

TORCHES, Asbestos. Handles 15c. extra.
Each 35c.

TOMATO SUPPORTS. Per doz., \$1.50;
each, 20c.

TREE GUARDS. Very strong steel wire,
with three iron supports. Each \$2.00.

**TREE SCRAPERS OR TRIANGULAR
HOES.** Large. Each 75c.

TROWELS.

Steel. 6 in., 45c.;

7 in., 50c.;

8 in., 55c.

Cast Steel. Each 25c.

Cleve's Angle. Large size. Each 25c.

Horticultural Tools and Requisites (Continued)

WIRE TREE BRUSHES for removing parasitic growth and insects from trees and cleaning greenhouse benches, floors and wood work.

No. 131. For cleaning stables and water channels. Each \$3.25.

No. 145. For cleaning wood and stone-work. Each \$2.25.

No. 150. The best tree brush for all purposes. Each \$2.50.

No. 160. For big trees. Handle 24 in. long. Each \$2.00.

No. 161. Made to fasten to handle for cleaning old trees. Each \$2.50.

No. 161 A. For cleaning trees. Handle 16 in. long. Each \$1.50.

No. 162. With handle 7 in. long for cleaning branches and trees. Each \$2.00.

WINDOW BOX. Painted green, 30 in. long. Each 75c.

INSECTICIDES

- ANT DESTROYER.** A non-poisonous powder. Will destroy or drive away black ants. $\frac{1}{2}$ lb. can, 40c.; 1 lb. can, 75c.
- APHIS PUNK.** The most convenient way of applying an insecticide ever yet devised. 60c. per box of 12 rolls; by mail, 75c.
- ARSENATE OF LEAD.** For spraying all kinds of trees. Kills the Rose bugs and Elm beetle. Dilute 1 lb. to 20 gals. water. Per lb., 25c.; 5 lbs., \$1.00.
- BORDEAUX MIXTURE.** A reliable remedy for the prevention of fungus and fungoid diseases.
Liquid, qt. 40c.; gal. \$1.25; 5 gals., \$5.00.
Dry, 1 lb. box, 20c.
- CATTLE COMFORT.** Protects cattle, dogs, etc., from flies and other insects. Qt. 45c., gal. \$1.25, 5 gals. \$5.00.
- FIR TREE OIL.** For greenhouse and house plants. It destroys all plant insects without injuring the plants. $\frac{1}{2}$ pt., 40c.; pt., 75c.; qt., \$1.40; $\frac{1}{2}$ gal., \$2.50; 1 gal., \$4.50.
- FIR TREE OIL SOAP.** Useful on greenhouse and garden plants, killing red spiders, mealy bug, aphids, etc. $\frac{1}{2}$ lb. tin, 25c.; 2 lbs., 75 c.; 5 lbs., \$1.75.
- COPPERDINE.** A remedy for fungoid diseases of plants, particularly for grapes, etc. 1 lb. box, 25c.; 5 lb. box, \$1.00.
- GISHURST COMPOUND.** An English preparation for greenfly, scale, mealy bug, red spider, etc. 1 lb. box, 50c.
- GRAPE DUST.** For the prevention of mildew on roses, grapes, gooseberries, etc. 5 lb. pkg., 35c.; 100 lb. keg, \$5.50.
- HELLEBORE POWDER.** For rose slugs, currant worms, etc. Dust on with gun or bellows while the foliage is moist. $\frac{1}{4}$ lb., 10c.; $\frac{1}{2}$ lb., 15c.; 1 lb., 20c.; 5 lbs., 90c.
- KEROSENE EMULSION.** The best insecticide for general use on all plants, doors or out. Qt., 40c.; gal., \$1.25; 5 gals., \$4.50.
- LEMON OIL.** For destroying mealy bugs, scale, thrip, red spider, etc. $\frac{1}{2}$ pt., 25c.; 1 pt., 40c.; qt., 75c.; $\frac{1}{2}$ gal., \$1.25 1 gal., \$2.25.
- NICO FUME.** Extra strong tobacco paper for burning. 24 sheets, 75c.; 144 sheets, \$3.50; 288 sheets, \$6.50.
- NICO FUME LIQUID.** For spraying or fumigating. Does not stain or injure the blooms, and no disagreeable odor. $\frac{1}{4}$ pt., 50c.; pt., \$1.50.
- NIKOTEEN.** A thorough exterminator of mealy bug, thrip, lice and all insects affecting plant life. 1 pint \$1.50.
- NICOTICIDE.** Fumigating compound. A certain destroyer of all greenhouse bugs. One pint sufficient for 32,000 cubic feet. \$2.50 each.
Fumigators for above. 75c. each.
- PARIS GREEN.** For potato bugs, etc. $\frac{1}{4}$ lb., 15c.; $\frac{1}{2}$ lb., 20c.; 1 lb., 40c. By mail, 16c. per lb. extra.
- ROSE LEAF EXTRACT OF TOBACCO.** A nicotine solution. Pt., 35c.; gal., \$1.50; 5 gals., \$5.00.
- SCALECIDE.** For San Jose scale and spraying all kinds of trees. Can be prepared in an instant by adding one gallon of Scalecide to 15 or 20 gallons of water. 1 gal. can, \$1.00; 5 gals., \$4.00; 10 gals., \$7.50; 50 gals., \$25.00.
- SLUG SHOT.** Destroys all insects injurious to house and garden plants, vegetables and fruits of all kinds. 5 lb. pkg., 30c.; 10 lbs., 60c.; 100 lbs., \$4.50.
- SULPHO-TOBACCO SOAP.** Non-injurious to plant life, exterminates moths, cockroaches, etc. 3 oz. cake, 10c.; 8 oz. cake, 20c.
- SULPHUR, Powdered.** A staple preventive for mildew on grapes, roses, etc. Lb., 10c.; 10 lbs., 60c.; 25 lbs. and over, 5c. per lb.
- SULTAR INSECTICIDE.** A valuable disinfectant and insecticide. Will remove green from greenhouse walks with one application and all insect life from benches, also useful for spraying chicken houses, dog kennels, etc. Per gal., \$3.00.
- TOBACCO STEMS FOR FUMIGATING.** Clean and free from rubbish. In bales of 100 lbs., \$1.75 each; 300 lbs., \$4.50.
- TOBACCO DUST.** Destroys rose lice, cabbage and turnip fleas, etc. Lb., 10c.; 5 lbs., 35c.; 10 lbs., 60c.; 100 lbs., \$3.00.
- TOBACCO DUST FUMIGATING.** Used for burning in place of stems. 10 lbs., 60c.; 50 lbs., \$2.00; 100 lbs., \$3.50.
- WHALE-OIL SOAP.** Kills insects and eggs on trees and plants. 1 lb., 15c.; 3 lbs., 40c.
- WILSON'S PLANT OIL.** For killing scales on palms and other plants. $\frac{1}{2}$ pt. can, 25c.; pt. can, 40c.; qt. can, 75c.; gal., \$2.00.
- WORM ERADICATOR.** For destroying worms in flower pots, lawns, tennis courts, etc.
Dry form, 1 lb. box, 50c.
Liquid form, 1 gal., \$2.00; 10 gals., \$1.75 per gal.
- X. L. All Liquid Insecticide.** For spraying. Harmless to very delicate plants; kills all insect pests. Pt., 65c.; qt., \$1.00; $\frac{1}{2}$ gal., \$1.75; 1 gal., \$3.50.

FERTILIZERS

BONE, MEAL

A very pure, finely pulverized form of ground bone, especially prepared for rose culture, top dressing for lawns, potted plants, and garden purposes. Price, 5 lbs., 30c.; 10 lbs., 50c.; 100 lbs., \$2.75; 200 lbs., \$5.00; ton \$40.00.

BONE, CRUSHED

A coarse grade, well adapted for grape vine borders. Price, 100 lbs., \$3.50; ton, \$60.00.

BLOOD AND BONE

It is of value for garden crops, fruit trees, grape vines, etc. For garden crops, drill in 300 to 500 lbs. per acre. 100 lbs., \$2.50; 200 lbs., \$4.50; ton, \$45.00.

BONARBOR

This plant food has a wonderful effect on plant life. It is good for flowering plants of all kinds, vegetables, fruit and shade trees, lawns, etc. $\frac{1}{2}$ lb. pkg., 25c.; 1 lb. pkg., 40c.; 5 lb. pkg., \$1.75.

CLAY'S FERTILIZER

This is one of the best manures for all horticultural purposes, either in greenhouse or garden. It is productive and lasting. 28 lbs., \$2.25; 56 lb. bag, \$4.00; 112 lb. bag, \$7.00.

ICHTHEMIC GUANO

A very valuable manure for chrysanthemums and greenhouse plants. Price: 25 lbs., \$2.25; 50 lbs., \$4.25; 100 lbs., \$8.00.

LAND PLASTER OF GYPSUM

An excellent addition to land for such crops as require lime and sulphates, particularly turnips, potatoes, grasses, etc. Bbl., about 250 lbs., \$2.00; ton, \$15.00.

MURIATE OF POTASH

A high-grade fertilizer, and one of the best for use, and general stimulator. 10 lbs., \$1.00; 100 lbs., \$5.00.

NATURAL PLANT FOOD

By using our Genuine Natural Peruvian Plant Food with the soil or in the water, your plants will make a vigorous growth and give successful results. Full directions for use on every package. Package 15c. By mail 20c. Large package 25c.

NITRATE OF SODA

It is valuable for grain, corn, beets, potatoes, grasses, peas, beans, clover, etc. Being extremely soluble, it should not be applied until the plants are above ground, using 100 to 500 pounds per acre. 5 lbs., 35c.; 10 lbs., 60c.; 50 lbs., \$3.00; 100 lbs., \$5.00.

PERUVIAN GUANO

A fine fertilizer for flowers or vegetables. 5 lb. package, 30c.; 10 lbs., 50c.; 100 lbs., \$2.50.

PULVERIZED SHEEP MANURE

A rich, pure and natural manure. Excellent as a top dressing for lawns, and mixing with the soil for greenhouse plants—one part manure and six parts soil. 5 lb. package, 25c.; 10 lbs., 50c.; 50 lbs., \$1.25; 100 lbs., \$2.00; ton, \$35.00.

SALT, AGRICULTURAL

Used for top dressing asparagus beds, etc. Should be used in the Spring. 100 lbs., \$1.50; 200 lbs., \$3.00.

SOOT, IMPORTED SCOTCH

A fertilizer for stimulating growth and giving a rich, dark foliage; also an excellent remedy against slugs, grubs and cutworms when mixed in the surface of the soil. Bag of 100 lbs. \$5.00.

SULPHATE OF AMMONIA

One of the purest and most lasting fertilizers. 10 lbs., \$1.00; 100 lbs., \$7.50.

THOMPSON'S CHRYSANTHEMUM MANURE

A special top dressing of unusual merit. 28 lbs., \$4.50; 56 lbs., \$7.50; 112 lbs., \$14.00.

THOMPSON'S VINE AND PLANT MANURE

A well known English fertilizer. 56 lbs., \$4.00; 112 lbs., \$7.00.

VALSANG

A perfect plant food for chrysanthemums and roses. 56 lb. bag, \$4.00; 112 lb. bag, \$7.00.

WOOD ASHES, UNLEACHED

For lawns, gardens and fruits, Hardwood Ashes are unequalled. Clean, free from offensive odor and destroy many of the insects which are so injurious. Apply 3,000 lbs. per acre. 200 lbs., \$3.00; ton (2,000 lbs.), \$25.00.

MARSHALL'S BONE MANURE

(Tankage.)

This manure is guaranteed to contain no acid or chemicals. It will grow any horticultural or vegetable crop, and is a substitute without its disagreeable features. We can highly recommend it for the garden, lawn, or greenhouse.

For plants use a 7-inch pot to a large wheelbarrow of soil well mixed together. On land use 500 lbs. to the acre or 50 lbs. to 300 square feet of surface. For pot plants one part of manure to nine parts of good soil.

5 lbs., 25c.; 10 lbs., 40c.; 25 lbs., 75c.; 50 lbs., \$1.25; 100 lbs., \$2.00; ton, \$32.50.

PERFECTION TOMATO SUPPORT

This is the most practicable support on the market. It is made of wood and will not burn the vines in hot weather, or cut them off when swayed by the wind.

The height is 36 inches and width 12 inches. It can be unfolded after use without damage and stored away for the following season.

Each 30c.; dozen \$3.00.

WEED KILLERS

Weedicide. Valuable for killing weeds on walks, court yards, drives, etc. One gallon dilutes to 15 or 20 gallons of water. Saves many times its cost in labor, and more effective. Gal. \$1.00, 5 gals. \$4.00.

Sterlingworth Weed Killer. In powder form, to be dissolved in water. 1 lb. makes 15 gals., sufficient for 50 square yards. 1 lb. pkg., 50c.; 3 lb. pkg., \$1.25; 5 lb. pkg., \$2.00.

Perfection Tomato Support.

ADJUSTABLE GARDEN CULTIVATOR

The most useful hand garden tool on the market.

It will pull out the weeds, pulverize the ground thoroughly, leaving it level, works where other implements fail.

It will work between the rows, or the center shovel can be removed, and straddle the row if desired.

It is adjustable in width by sliding the top plate.

It is the lightest, weighing but 3 pounds complete, with long handle, and the strongest, as the blades are forged out of a solid steel rod. \$1.25.
